Adene Atelier is a creative audiovisual house specializing in exceptional weddings. We blend the aesthetics of cinema with the art of emotional storytelling to craft bespoke films that are elegant, authentic, and timeless. Each production captures the soul of the moment with artistic rigor, worthy of the most prestigious venues and events. Entrusting Adene Atelier with the imagery of a wedding is to choose a sensitive and exacting signature, born from a distinctive French approach to art.

FOUNDER

Born into a family of artists, with a painter mother and an ethnomusicologist father, visual expression has always been Aden Gabriel's natural language. Since the age of 16 and his first camera, he has continuously filmed, written, and created. He has collaborated with renowned artists and directed his first film, which received multiple awards at international festivals, shaping a cinematic aesthetic that is sensitive, precise, and timeless.

Adène Atelier is the culmination of this pursuit of excellence. An independent studio dedicated to the most refined weddings, blending French elegance, immersive storytelling, and raw emotion.

Each wedding film is crafted as a unique work, at the intersection of lifestyle, fashion, and cinema. Capturing what escapes staging a trembling glance, a loaded silence, a genuine burst of laughter is at the heart of every project. Every collaboration begins with a meeting, and only a limited number of couples are welcomed each season, ensuring complete immersion and a tailored approach.

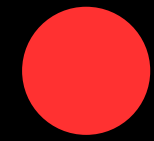

Adène Atelier works with exceptional venues and recommends a curated selection of photographers who share the same values of quality, discretion, and creativity.

ELOPEMENT

Designed for couples seeking absolute intimacy, the Elopement Collection celebrates the very essence of love. A suspended moment, timeless, shared by two, in France or abroad.

Each project is conceived as a rare experience, where every detail is carefully orchestrated so the couple can fully enjoy every moment, free from any logistical constraints.

From the very first discussions, Aden Gabriel, director, envisions and directs the visual universe of the project. Depending on the artistic approach, a bespoke creative team is assembled, including photography, styling, and beauty, to craft a coherent, elegant, and deeply emotional narrative inspired by the codes of fashion and editorial work.

The couple is guided at every step: advisory meetings in our private salons in Paris 8^e, preparation of travel documents, location scouting, creation of a personalized visual universe, and overall artistic direction.

Your story is immortalized through an exceptional cinematic film, accompanied by an editorial-style photographic output, designed as a natural extension of the film's perspective. Each image strives for a timeless aesthetic, faithful to the intensity and sincerity of your day.

The final deliverable is presented as a true work of art: a private online gallery, a crystal-engraved USB key in its natural linen case, and a Fine Art photo album, handcrafted by a French atelier.

The experience covers the entire stay on-site, from accommodation to bespoke services*, providing total, seamless, and uncompromised immersion.

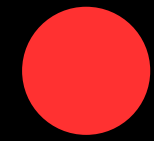

An all-inclusive experience, conceived as a unique work, where emotion, beauty, and authenticity intertwine to create a rare and deeply personal memory.
